Editorial Reviews

From the Back Cover

Complications from dental procedures are inevitable and encountered by all dental professionals. *Avoiding and Treating Dental Complications: Best Practices in Dentistry* is designed to address proper management of these situations in everyday practice.

With contributions written by experts in their respective fields, *Avoiding and Treating Dental Complications* is an evidence-based guide to the most successful treatment methods and management of complications across a broad range of dental problems. Chapters are devoted to restorative dentistry, periodontics, endodontics, prosthodontics, oral surgery, anesthesia, implants, pediatric dentistry, and orthodontics.

- Covers a range of dental issues and complications found in daily practice
- Written by experts in each specialty
- Features tables and charts for quick information
- Includes clinical photographs and radiographs

About the Author

Deborah Termeie, DDS, is Clinical Instructor in Periodontics at the UCLA School of Dentistry and maintains an active private practice in Los Angeles. She is a Diplomate of the American Board of Periodontology. Dr. Termeie has written several peer-reviewed journal articles and is the author of the best-selling textbook *Periodontal Review*.
